RIDERS GEAR

MAKE LIFE A RIDE

WEL COME

From the first turn of the throttle to the last mile of your journey, what you wear matters.

BMW Motorrad apparel is more than just gear—it's part of the ride. Crafted to amplify joy, confidence, and connection, our apparel combines performance, protection, and unmistakable style—whether you're on two wheels or off the bike.

On the following pages, you'll find a curated lineup designed to suit your lifestyle, elevate every ride, and bring the spirit of MAKE LIFE A RIDE to everything you do.

So take a look, find your gear, and make every ride unforgettable. For more information or to shop online visit www.shopbmwmotorcycles.com.

MORENO CONNECT GORE-TEX JACKET

The Moreno Connect GORE-TEX jacket blends a sleek, understated look with outstanding functionality. Its three-layer outer material ensures waterproof protection at all times, while generous ventilation options maintain a comfortable climate. Integrated back and joint protectors offer a high level of protection—even off the beaten path. For added comfort, the heated vest can be controlled via smartphone or directly through the motorcycle. Active lighting on the back and sleeves enhances visibility during nighttime rides.

A dramatic, low-angle photograph showing the silhouette of a person climbing a dark, craggy rock face. The climber is positioned on the left side of the frame, with their right arm extended upwards, gripping a rock. The background is a vast, cloudy sky with warm, orange and yellow hues, suggesting a sunrise or sunset. The overall mood is one of adventure and challenge.

A man and a woman are standing on a city street at night. The man, in the foreground, is wearing a dark blue jacket with "BMW MOTORRAD" printed on the back. The woman, standing next to him, is wearing a bright blue jacket and black gloves, holding a white motorcycle helmet. In the background, there are city buildings, streetlights, and a red double-decker bus. The front of a motorcycle is visible in the bottom right corner.

SEOUL GORE-TEX SNEAKERS

The Seoul GORE-TEX sneakers offer more than just a stylish appearance. The GORE-TEX membrane provides reliable protection against wind and water, while the oil- and fuel-resistant sole, along with integrated heel and ankle guards, enhance protection. A concealed zipper ensures quick and easy entry and removal.

A close-up portrait of a man with a beard and mustache, smiling broadly. He is wearing a blue and dark navy blue jacket. The background is a blurred desert landscape at sunset, with warm orange and yellow light on the horizon and mountains in the distance. The text "GOOD TO KNOW" is overlaid in large white letters.

GOOD TO KNOW

MATERIALS AND THEIR PROPERTIES

TEXTILE

Use in e.g. textile suits, jeans, T-shirts, functional wear

- Polyamide (e.g. Cordura)
- Polyamide – Denim
- Organic cotton
- Cotton with polyamide
- Merino wool
- Aramid (Kevlar®)

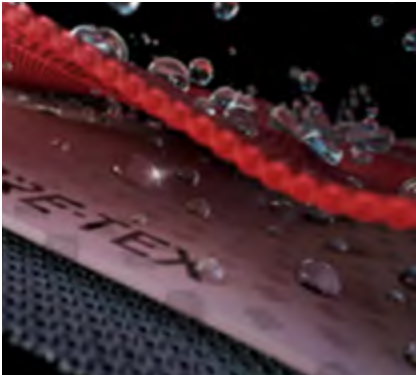

LWG* LEATHER

Use e.g. in jackets, suits, gloves or boots

- Cowhide
- Hydrophobic leather
- Goatskin
- Kangaroo leather
- Ray leather

CLIMATE MEMBRANE

Use e.g. in our outer layers or Z-liners, boots and gloves

- Z-Liner
- 3 layer laminate
- 3-layer insert or outer layer

FINISHING

Use e.g. in our outer layers or Z-liners, boots and gloves

- Dirt and oil-repellent
- Oil finish
- Impregnation

PREMIUM INGREDIENTS

Used in almost all products, as they represent a quality feature

- GORE-TEX (membrane)
- Windstopper® Membrane by GORE-TEX
- YKK (zippers)
- Vibram (soles)
- SAS-TEC (protectors)

* Leather Working Group

TEXTILE VS. LEATHER

TEXTILE

- Breathable
- Lightweight
- Comfortable
- High abrasion resistance (depending on type)

LEATHER

- Ideal for the toughest applications (e.g. motorsport)
- Higher weight
- Provides more mobility the longer it is worn
- High abrasion resistance
- Better aerodynamics

TEXTILE PROPERTIES

1 POLYAMIDE (E.G. CORDURA)

- Long lasting
- High abrasion and tear resistance
- Comfortable to wear, possibly due to elasticity
- Low weight
- Very easy-care and quick-drying
- High heat resistance

2 POLYAMIDE – DENIM

- Looks like a 'normal' denim cloth, but has more protective properties
- More abrasion-resistant than standard jeans
- Very comfortable to wear
- Easy to care for

3 ORGANIC COTTON

- High quality, as it is skin-friendly and soft
- Low allergy potential due to natural fiber
- Easy to care for
- Highly absorbent
- Breathable material
- Free of herbicides and pesticides

4 MERINO WOOL

- Antibacterial and highly effectively odor-inhibiting
- Breathable
- Temperature-regulating: warms in winter / cools in summer
- Good merino quality is soft and pleasant on the skin

5 ARAMID (KEVLAR®)

- High abrasion resistance and fall protection despite substantially lower thickness
- Long-lasting
- Best grip

LEATHER PROPERTIES

1 COWHIDE

- Very high abrasion and fall resistance
- Particularly durable
- Comfortable and pleasant temperature control
- Water-repellent, reduced absorption effect
- Attractive look and feel

2 HYDROPHOBIC LEATHER

- Highly water-repellent
- Better heat regulation and breathability
- Dimensionally stable
- Less susceptible to leather tears or rapid aging
- Dries faster than normal leather

3 KANGAROO LEATHER/GOATSKIN

- High abrasion resistance and fall protection despite substantially lower thickness
- Long-lasting
- Best grip

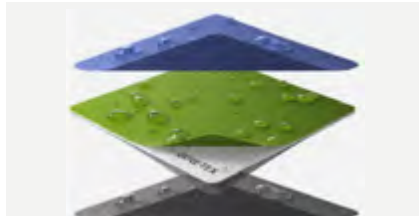

4 RAY LEATHER

- Very slippery surface with high abrasion resistance and fall protection and low heat transfer (important on the palm of the hand in the glove)
- Very high longevity
- High quality appearance

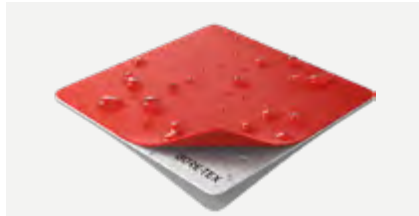

CLIMATE MEMBRANE PROPERTIES

Z-LINER

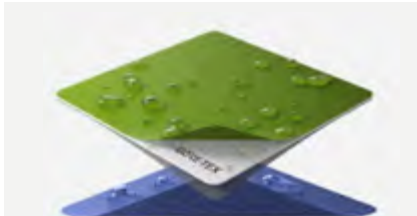

- Very light 3-layer laminate hanging freely between lining and outer material
- Windproof and waterproof
- Moisture can penetrate up to the membrane
- Very comfortable to wear as long as the outer jacket is not soaked

3-LAYER LAMINATE

- Membrane is laminated with the outer cloth and an „inner lamination“ to form a single layer
- Appears stiffer as all layers are processed in a composite
- Windproof and waterproof
- For particularly long wearing times under special conditions

3-LAYER INSERT OR OUTER LAYER

- Wide range of applications for special conditions (cold, wet) thanks to modularity
- Insert: like a Z-Liner and removable as separate inner lining
- Outer layer: like 3-layer laminate
- Outer layer: windproof and waterproof and can be worn separately from protective clothing

PROTECTION

WATER-REPELLENT

- Lowest water protection level (up to 8,000 mm water column)
- Cloth is impregnated and is impervious to small drops of rain
- After a longer time or increased water column the water is absorbed
- Hydrophobic materials, additional rain suit recommended

WATERPROOF

- 100% waterproof (at least 8,000 mm water column)
- The membranes used by BMW Motorrad Clothing can withstand a water column of up to 28,000 mm
- The seams are seam-sealed waterproof on the inside
- Absolute impermeability of the garment (because of the construction)

WINDPROOF

- GORE-TEX Windstopper®
- 100% windproof & breathable

FINISHING PROPERTIES

DIRT- AND OIL REPELLENT

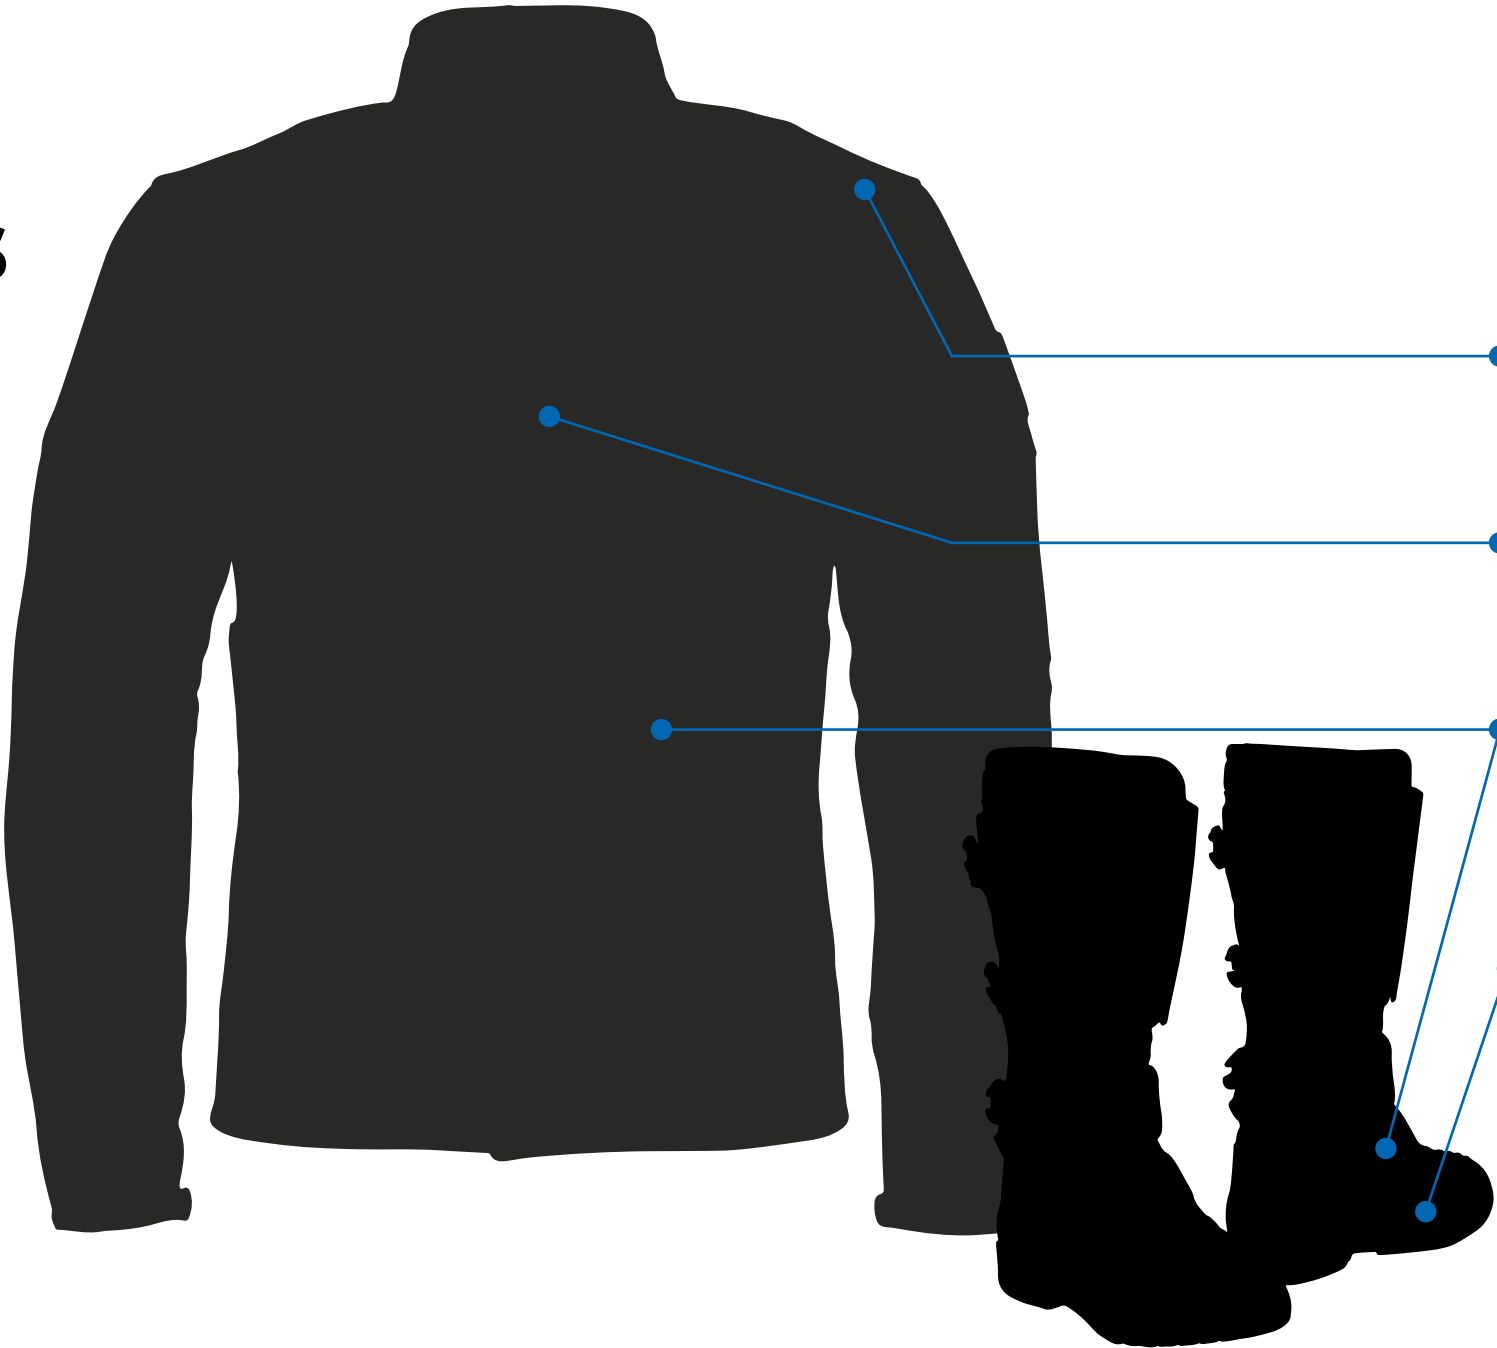

Special finishing or refining treatment to give cloths and textiles dirt and oil-repellent properties

OIL FINISH

Water-repellent, permanent coating with oil (remains intact even after washing)

IMPREGNATION

Protects and retains the properties of the materials. Customers can wear the garments longer

PROPERTIES OF PREMIUM INGREDIENTS

SAS-TEC

- Very good ergonomics
- Very good shock absorption
- Shock resistant
- Light weight

YKK ZIPPERS

- Premium quality
- Robust and very durable
- Pleasant handling
- Optionally also waterproof

GORE-TEX

- Permanently water- and windproof
- Especially breathable
- Lifetime guarantee (Guaranteed to Keep You Dry)
- Special: GORE-TEX Windstopper® is only windproof & breathable

VIBRAM

- Oil and fuel-resistant
- High-grip (slip-resistant)
- Very high abrasion resistance
- Sole exchange service

PROTECTION LEVEL & CLASS

PROTECTION LEVEL = PROTECTORS

- The Protection Level describes the typical features and associated application areas of the **various protectors** (clothing).
- There is a European standard that tests and certifies the protective part of products (used to protect riders in case of a crash).
- The Protection Level of motorbike shoes or boots is most of the time Level 1. Level 2 is usually for special boots like for Firefighters, Electricians or Mechanics (semi-conducting, anti-static footwear) etc.

PROTECTION CLASS = MATERIAL

- The Protection Classes classifies the **impact and abrasion protection of materials** in general and specific places, the so-called zones.
- The classification makes it easy for sellers or customers to decide which kind of jackets, pants, suits, gloves, etc. should be used for the specific operating areas.

PROTECTORS AND THEIR PROPERTIES

PROTECTION LEVEL

PROTECTION LEVEL 1

- Joint and back protectors with standard EN 1621-1
- Standard equipment

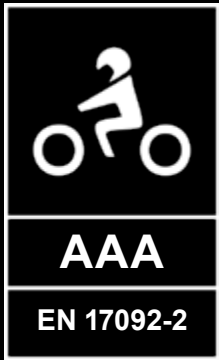

PROTECTION LEVEL 2

- Joint and back protectors with standard EN 1621-2
- Allows less impact force in the event of a crash

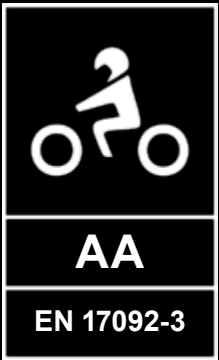

PRODUCT	PROTECTION LEVEL 1	PROTECTION LEVEL 2	PROTECTION LEVEL 1	PROTECTION LEVEL 2
Name of Protector	NP FLEX or NP FLEX 3D	NP 3 EVO	NP 3 FLEX Urban	NP 3 or NP 3 long
Zone	Shoulder, Elbow, Knee	Shoulder, Elbow, Knee and Hips	Back	Back, Back long
Operating Area	Especially for urban areas	Tour, adventure and sports	Especially for urban areas	Tour, adventure and sports
Certification	Norm EN 1621-1	Norm EN 1621-2	Norm EN 1621-1	Norm EN 1621-2

PROTECTION CLASSIFICATION

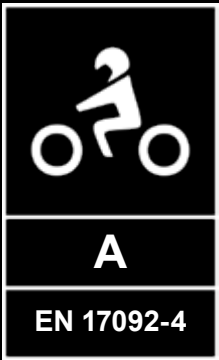

E.g. one or two-piece leather suits for the race track

- Especially high impact and abrasion protection
- Low ergonomic flexibility

Suitable for on- and off-road experience

- Relatively high impact and abrasion protection
- High ergonomic flexibility

Lightweight clothing is ideal for leisure and city trips

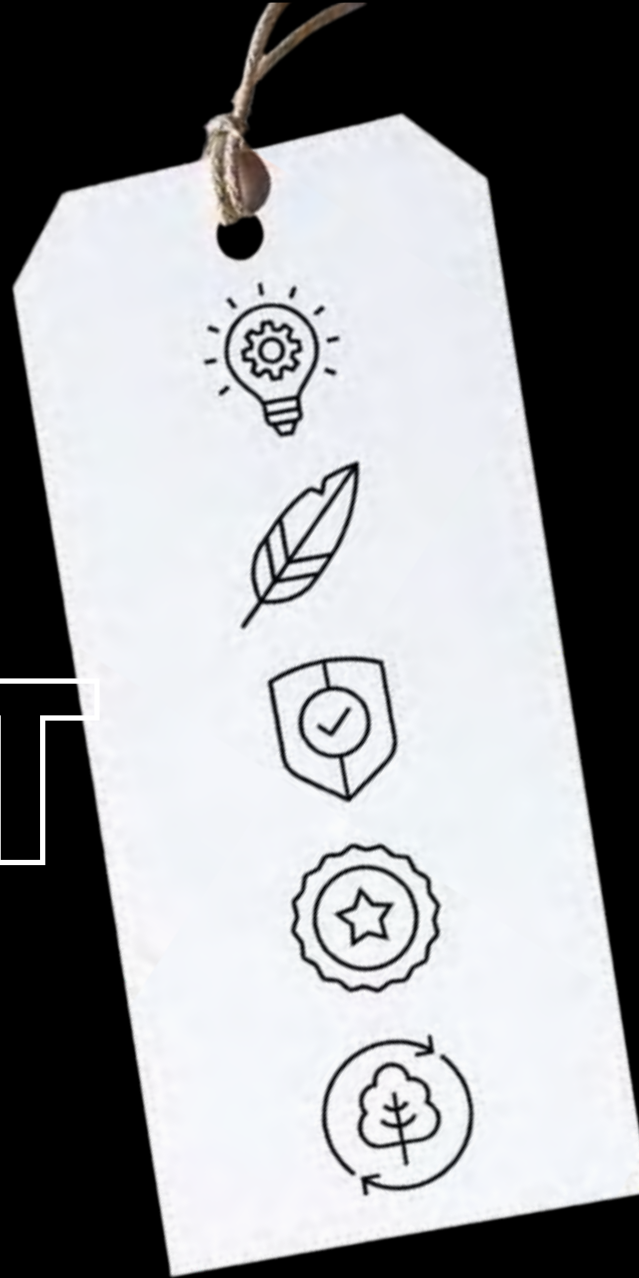

- Low impact and abrasion protection
- Restricts mobility as little as possible

C.A.R.E

CONCEPT

C.A.R.E. HALLMARK

- A quality promise for uncompromising rider's equipment
- An acronym for Concept of Advanced Rider Equipment
- Equipment that meets our high standards for protection, innovation, convenience, comfort, quality and sustainability

C.A.R.E CONCEPT

The C.A.R.E. concept is composed of the following standards:

INNOVATION	QUALITY	COMFORT	PROTECTION	SUSTAINABILITY
				
<p>Innovation is part of our DNA</p> <ul style="list-style-type: none">• 1986 the first manufacturer to use GORE-TEX in their rider's equipment• 1990 Kevlar reinforcement for a motorbike suit• 2021 Jackets with integrated lighting	<p>High Quality</p> <ul style="list-style-type: none">• Numerous test miles, many days in the wind tunnel and the toughest real-life applications• Standards that no other manufacturer specifies with such rigor	<p>Focus on ergonomics, climate and acoustics</p> <ul style="list-style-type: none">• Innovative ventilation and membrane systems• Materials that are very comfortable to wear and fit perfectly	<p>Maximum protection through development and testing in our own workshops</p> <ul style="list-style-type: none">• Abrasion resistance of crash-prone areas tested using crash simulators• Crash points with the latest CE protectors, doubled-up and double-stitched	<p>A sense of responsibility towards the environment</p> <p>Use of organic cotton or recycled fibers</p> <ul style="list-style-type: none">• Longevity of the products—Conservation of resources• Extensive range of services

NOTE: As there are no legal requirements for quality, we work from the relevant DIN EN ISO standards.

COMPARISON BETWEEN STANDARD AND C.A.R.E.

	STANDARD	C.A.R.E
TEAR RESISTANCE	The minimum tear resistance of the materials is specified to DIN standard DIN EN ISO 4674-1: 2017, Method B	These Standards are our minimum requirement
WATERPROOFNESS	According to a DIN standard, a fabric with a water column of 8,000 mm is considered waterproof	The membranes used by BMW Motorrad (e.g. GORE-TEX) achieve a water column of up to 28,000 mm with particularly high breathability
UV RESISTANCE	No normative requirements	Paint systems and textiles are tested for durability and visual changes under strict test requirements. We demand very high standards here (4,5-5 of 5 points)
FIT AND ERGONOMICS	The standard only specifies standard sizes	The range of sizes available from BMW Motorrad is based on standardized clothing sizes. high volume products are also available in short and long sizes
HEIGHT ADJUSTABILITY OF THE PROTECTORS	No normative requirements / guideline	Our knee protectors are height-adjustable as standard and can therefore be adapted to the rider for a comfortable fit and protection

CONNECTIVITY

CONNECTED RIDE

- A functional product family that you can link by Bluetooth
- Control most of all Connected products using the BMW Motorrad Connected app
- Wirelessly transmits your smartphone's usual features, such as telephone, music, and navigation to the TFT display of your motorcycle

CONNECTIVITY

TOKYO CONNECT GORE-TEX JACKET

ACTIVE LIGHTING

Light conductors that have been smoothly integrated into the back and sleeves are waterproof and flexibly adapt to your movements. They make sure you are seen in poor lighting conditions due to rain or smog during the daytime or at night in the dark. The light conductors thus make sure that you are no longer overlooked in traffic and they guarantee you added protection. Simply switch them on using the BMW Motorrad Connected app or the touch panel that has been integrated into the sleeve. And there is no issue with washing them together with the jacket.

INTEGRATED TOUCH PANEL

The bottom right-hand sleeve accommodates the invisible touch panel that is merely characterized by a graphic design. Simply touch it and switch your jacket's active lighting on or off. The other alternative would be to assign a different favorites function to it in the BMW Motorrad Connected App. As a result, you could also use it to open your navigation favorites, skip a song or operate and configure other Connected Rider Gear products.

CHARGING POCKET AND POWER SUPPLY

The charging pocket is in the jacket's left-hand inside pocket. Simply slip your smartphone in it when you leave the house and it will automatically charge. Consequently you will no longer have to worry about an empty battery. The pocket is supplied with power by a power bank that has also been integrated into the jacket. Alternatively you can also connect the jacket to your bike with a power cable. In this case you can use the BMW Motorrad Connected App to decide whether to charge your smartphone or the power bank.

CONNECTIVITY

CONNECTED RIDE SMARTGLASSES

SMARTGLASSES

The smartglasses with UV protection look like sporty sunglasses and suit your needs with their slim shape and light weight. Choose from one of four different nose pads for the perfect fit. Depending on the weather, you can choose between the 85%-clear or the tinted lenses. The light sensor automatically ensures that you can always see the riding information clearly and are not dazzled.

HEAD-UP DISPLAY

A head-up display that you can turn on or off at any time. The optical projection module sits above the right lens on the inside. It shows you information about speed, speed limit, gear and navigation in your direct field of view while riding. And it all comes in the familiar BMW Motorrad design. So you can concentrate fully on the road. And whenever you don't need the information, simply switch off the display using the button on the left temple or via the BMW Motorrad Connected app. The charging interface is also located on the temple, through which you supply the glasses with power via the charging cable.

CONNECTIVITY

MORENO CONNECT GORE-TEX JACKET

ACTIVE LIGHTING

Light conductors that have been smoothly integrated into the back and sleeves are waterproof and flexibly adapt to your movements. They make sure you are seen in poor lighting conditions due to rain or smog during the daytime or at night in the dark. The light conductors thus make sure that you are no longer overlooked in traffic and they guarantee you added protection. Simply switch them on using the BMW Motorrad Connected app or the touch panel that has been integrated into the sleeve. And there is no issue with washing them together with the jacket.

INTEGRATED HEATED VEST

The integrated heated vest can be controlled using a smartphone or via the motorcycle. The power to the control unit is either supplied via the power bank or directly via the motorcycle.

EXCELLENT FUNCTIONALITY

The three-layer outer material keeps the jacket waterproof at all times, while generous ventilation options ensure an optimum climate. Back and joint protectors offer a high level of protection even off the beaten track. It has three inside pockets, one designed as a charging pocket for smartphones.
