PRODUCT GUIDE

COLLECTION 2026

ENGLISH | VERSION 1.0

MAKE LIFE A RIDE

WELL COME

Clothing is an integral part of the entire motorcycle experience. An amplifier, whether worn while riding (Riders Gear) or in everyday life (Casual Wear): Joy intensified.

With BMW Motorrad Clothing, we offer our customers a holistic product portfolio to enhance their enthusiasm for riding, our brand and the entire experience of MAKE LIFE A RIDE.

Your advice at the Point of Sales plays a significant key role to engage our customers. Please spark their passion by helping them find the BMW Motorrad Clothing that perfectly suits their motorcycle and needs.

A photograph of three people in motorcycle gear celebrating on a mountain road. A woman on the left, a man in the center, and a man on the right are all smiling and raising their fists in the air. They are standing next to a motorcycle. The background shows a mountain landscape under a cloudy sky.

WELCOME

Finally you are looking at the second digital Product Guide of BMW Motorrad Clothing. Designed to help you advise customers at the POS in their search.

This document provides all you need to introduce our products to customers in an easy way – plus all important information.

Lets have a look into the chapters:

1. Overview of the collection 2026 (Riders Gear & Casual Wear)
2. Presentation of our Highlights and their characteristic features
3. Compilation of existing variants: colors, size ranges, product numbers
4. Cross-Selling recommendations
5. Basics about Riders Gear (e.g. Material, Membranes, Protection Levels/Classes, etc)

SPIRIT OF GS

A photograph of three motorcyclists riding away on a dirt road during a golden sunset. The lead rider is in the foreground, and two others are further down the road. The scene is filled with dust kicked up by the bikes, and the silhouettes of trees are visible on the left. The text 'SPIRIT OF GS' is overlaid in large white letters across the center of the image.

GS TROPHY

GS RALLYE GLOVES

The GS Rallye gloves are the ideal companion for all bikers who ride off-road in summery temperatures. The upper hand section, made of elasticated fabric with a large knuckle guard, is designed to withstand the stresses of off-road use. The palm, made of kangaroo leather with reinforcements, offers maximum grip.

GAVIA AIR BOOTS

The Gavia AIR boots are made of a particularly airy fabric: the special lining and outer material guarantee high breathability. This makes the boots ideal for warm-weather tours. Thanks to their lightweight midsole and grippy VIBRAM outsole, they also impress on foot with a sneaker-like walking feel.

A photograph of two motorcyclists on a road at sunset. The rider on the right is performing a burnout, creating a large cloud of white smoke from the rear tire. The rider on the left is sitting on their motorcycle, looking towards the right. The sky is a mix of orange, yellow, and grey, suggesting a cloudy sunset. The road is dark asphalt.

NITROUS SNEAKERS

The lightweight and airy Nitrous Sneakers in a BMW M Motorsport 3D-knit design offer excellent comfort. The comfortable and lightweight two-tone sole with BMW MOTORRAD logo and "M" inlay as well as TPU-reinforced surfaces in particularly stress-prone areas, such as the toe and ankle protection (outside only), make them ideal for motorsport-savvy bikers.

SOULFUEL

A close-up photograph of a dark, worn motorcycle jacket. The jacket is resting on a wooden surface. On the sleeve, the words "BMW MOTORRAD" are printed in a light color. The jacket shows signs of use, with some scuffing and dirt. The background is a soft, out-of-focus landscape with warm, golden light, suggesting a sunset or sunrise. The overall mood is rugged and adventurous.

SCHWABING LTD EDITION JACKET

NEW

HIGHLIGHT

A classic, reissued: The Schwabing Limited Edition jacket impresses with its top quality. Its water-repellent nubuck leather is hand-picked. Each jacket is also unique thanks to the embroidered serial number. NP-Flex-3D protectors in the shoulders and elbows offer moderate protection, while ventilation options and several pockets maximize comfort.

SCHWABING JACKET

The Schwabing jacket revives a classic in a new design. Twin stripes on the sleeves set striking visual accents. Under the high-quality cowhide leather, NP Flex protectors on the shoulders and elbows offer protection while four outside pockets and three inside pockets provide multiple stowage options. Several ventilation options at the front offer increased comfort.

A man and a woman are standing on a city street at night. The man is in the foreground, seen from the back, wearing a dark blue motorcycle jacket with 'BMW MOTORAD' printed on the back. The woman is standing next to him, wearing a bright blue motorcycle jacket and black gloves, holding a black and white motorcycle helmet. In the background, there are city buildings, streetlights, and a red double-decker bus. The scene is lit with a mix of warm orange streetlights and cool blue city lights.

A man wearing a white helmet with a clear visor and a dark jacket is smiling and pointing directly at the camera. The background is a blurred outdoor landscape.

GOOD TO KNOW

MATERIALS AND THEIR PROPERTIES

TEXTILE

Use in e.g. textile suits, jeans, T-shirts, functional wear

- Polyamide (e.g. Cordura)
- Polyamide - Denim
- Organic cotton
- Cotton with polyamide
- Merino wool
- Aramid (Kevlar®)

LWG* LEATHER

Use e.g. in jackets, suits, gloves or boots

- Cowhide
- Hydrophobic leather
- Goatskin
- Kangaroo leather
- Ray leather

CLIMATE MEMBRANE

Use e.g. in our outserts or Z-liners, boots and gloves

- Z-Liner
- 3 layer laminate
- 3-layer insert or outsert

FINISHING

Use e.g. in our outserts or Z-liners, boots and gloves

- Dirt and oil-repellent
- Oil finish
- Impregnation

PREMIUM INGREDIENTS

Used in almost all products, as they represent a quality feature

- GORE-TEX® (membrane)
- Windstopper Membrane by GORE-TEX®
- YKK (zip fasteners)
- VIBRAM (soles)
- SAS-TEC (protectors)

* Leather Working Group

TEXTILE VS. LEATHER

TEXTILE

- Breathable
- Lightweight
- Wearing comfort
- High abrasion resistance (depending on type)

LEATHER

- Ideal for the toughest applications (e.g. motorsport)
- Higher weight
- Provides more mobility the longer it is worn
- High abrasion resistance
- Better aerodynamics

TEXTILE PROPERTIES

1 POLYAMIDE (E.G. CORDURA)

- Long lasting
- High abrasion and tear resistance
- Comfortable to wear, possibly due to elasticity
- Low weight
- Very easy-care and quick-drying
- High heat resistance

2 POLYAMIDE – DENIM

- Looks like a “normal” denim cloth, but has more protective properties
- More abrasion-resistant than standard jeans
- Very comfortable to wear
- Easy to care for

3 ORGANIC COTTON

- High quality, as it is skin-friendly and soft
- Low allergy potential due to natural fiber
- Easy to care for
- Highly absorbent
- Breathable material
- Free of herbicides and pesticides

4 MERINO WOOL

- Antibacterial and highly effectively odor-inhibiting
- Breathable
- Temperature-regulating: warms in winter / cools in summer
- Good merino quality is soft and pleasant on the skin

5 ARAMID (KEVLAR®)

- High abrasion resistance and fall protection despite substantially lower thickness
- Long-lasting
- Best grip

LEATHER PROPERTIES

1 COWHIDE

- Very high abrasion and fall resistance
- Particularly durable
- High wearing comfort and pleasant temperature control
- Water-repellent, reduced absorption effect
- Attractive look and feel

2 HYDROPHOBIC LEATHER

- Highly water-repellent
- Better heat regulation and breathability
- Dimensionally stable
- Less susceptible to leather tears or rapid aging
- Dries faster than normal leather

3 KANGAROO LEATHER/GOATSKIN

- High abrasion resistance and fall protection despite substantially lower thickness
- Long-lasting
- Best grip

4 RAY LEATHER

- Very slippery surface with high abrasion resistance and fall protection and low heat transfer (important on the palm of the hand in the glove)
- Very high longevity
- High quality appearance

CLIMATE MEMBRANE PROPERTIES (EXAMPLE: GORE-TEX®)

Z-LINER

- Very light 3-layer laminate hanging freely between lining and outer material
- Windproof and waterproof
- Moisture can penetrate up to the membrane
- Very comfortable to wear as long as the outer jacket is not soaked

3-LAYER LAMINATE

- Membrane is laminated with the outer cloth and an „inner lamination“ to form a single layer
- Appears stiffer as all layers are processed in a composite
- Windproof and waterproof
- For particularly long wearing times under special conditions

3-LAYER INSERT OR OUTSERT

- Wide range of applications for special conditions (cold, wet) thanks to modularity
- Insert: like a Z-Liner and removable as separate inner lining
- Outsert: like 3-layer laminate
- Outsert: windproof and waterproof and can be worn separately from protective clothing

PROTECTION

WATER-REPELLENT

- Lowest water protection level (up to 8,000 mm water column)
- Cloth is impregnated and is impervious to small drops of rain
- After a longer time or increased water column the water is absorbed
- Hydrophobic materials, additional rain suit recommended

WATERPROOF

- 100% waterproof (at least 8,000 mm water column)
- The membranes used by BMW Motorrad Clothing can withstand a water column of up to 28,000 mm
- The seams are seam-sealed waterproof on the inside
- Absolute impermeability of the garment (because of the construction)

WINDPROOF

- GORE-TEX® Windstopper
- 100% windproof & breathable

FINISHING PROPERTIES

DIRT- AND OIL REPELLENT

Special finishing or refining treatment to give cloths and textiles dirt and oil-repellent properties

OIL FINISH

Water-repellent, permanent coating with oil (remains intact even after washing)

IMPREGNATION

Protects and retains the properties of the materials. Customers can wear the garments longer

PROPERTIES OF PREMIUM INGREDIENTS

SAS-TEC

- Very good ergonomics
- Very good shock absorption
- Shock resistant
- Light weight

YKK ZIPPERS

- Premium quality
- Robust and very durable
- Pleasant handling
- Optionally also waterproof

GORE-TEX®

- Permanently water- and windproof
- Especially breathable
- Lifetime guarantee (Guaranteed to Keep You Dry)
- Special: GORE-TEX® Windstopper is only windproof & breathable

VIBRAM

- Oil and fuel-resistant
- High-grip (slip-resistant)
- Very high abrasion resistance
- Sole exchange service

PROTECTION LEVEL & PROTECTION CLASS

PROTECTION LEVEL = PROTECTORS

- The Protection Level describes the typical features and associated application areas of the **various protectors** (clothing).
- There is an European standard that tests and certifies the protective part of products (used to protect riders in case of a crash).
- The Protection Level of motorbike shoes or boots is most of the time Level 1. Level 2 is usually for special boots like for Firefighters, Electricians or Mechanics (semi-conducting, antistatic footwear) etc.

PROTECTION CLASS = MATERIAL

- The Protection Classes classifies the **impact and abrasion protection of materials** in general and specific places, the so-called zones.
- The classification makes it easy for sellers or customers to decide which kind of jackets, pants, suits, gloves, etc. should be used for the specific operating areas.

PROTECTORS AND THEIR PROPERTIES

PROTECTION LEVEL

PROTECTION LEVEL 1

- Joint and back protectors with standard EN 1621-1
- Standard equipment

PROTECTION LEVEL 2

- Joint and back protectors with standard EN 1621-2
- Allows less impact force in the event of a crash

PRODUCT	PROTECTION LEVEL 1	PROTECTION LEVEL 2	PROTECTION LEVEL 1	PROTECTION LEVEL 2
Name of Protector	NP FLEX or NP FLEX 3D	NP3 EVO	NP3 FLEX Urban	NP3 or NP3 long
Zone	Shoulder, Elbow, Knee	Shoulder, Elbow, Knee and Hips	Back	Back, Back long
Operating Area	Especially for urban areas	Tour, adventure and sports	Especially for urban areas	Tour, adventure and sports
Certification	Norm EN 1621-1	Norm EN 1621-2	Norm EN 1621-1	Norm EN 1621-2

PROTECTION CLASSES

E.g. one or two-piece leather suits for the race track

- Especially high impact and abrasion protection
- Low ergonomic flexibility

Suitable for on- and offroad experience

- Relatively high impact and abrasion protection
- High ergonomic flexibility

Lightweight clothing is ideal for leisure and city trips

- Low impact and abrasion protection
- Restricts mobility as little as possible

C.A.R.E

CONCEPT

C.A.R.E. HALLMARK

- A quality promise for uncompromising rider's equipment
- An acronym for Concept of Advanced Rider Equipment
- Equipment that meets our high standards for protection, innovation, convenience, comfort, quality and sustainability

C.A.R.E CONCEPT

The C.A.R.E. concept is composed of the following standards:

INNOVATION

Innovation is part of our DNA

- 1981 world's first flip-up helmet
- 1986 the first manufacturer to use GORE-TEX® in their rider's equipment
- 1990 Kevlar reinforcement for a motorbike suit
- 2021 Jackets with integrated lighting
- 2026 Glandon Air Jacket: Manufactured from recycled materials and engineered for 100% recyclability

QUALITY

High Quality

- Numerous test kilometres, many days in the wind tunnel and the toughest real-life applications
- Standards that no other manufacturer specifies with such rigour
- Continuous feedback from riders and international BMW Motorrad dealers

COMFORT

Focus on ergonomics, climate and acoustics

- Engineered aerocoustics ensure a pleasantly quiet riding experience
- Innovative ventilation and membrane systems
- Materials that are very comfortable to wear and fit perfectly

PROTECTION

Maximum protection through development and testing in our own workshops

- Abrasion resistance of crash-prone areas tested using crash simulators
- Crash zones reinforced with the latest CE protectors, double layers and double-stitched seams

COMPARISON BETWEEN STANDARD AND C.A.R.E.

STANDARD

C.A.R.E

TEAR RESISTANCE

The minimum tear resistance of the materials is specified to DIN standard DIN EN ISO 4674-1: 2017, Method B

These Standards are our minimum requirement

AERODYNAMICS / AEROACOUSTICS OF THE HELMETS

No testing of the aerodynamics and aeroacoustics

The aerodynamics and aeroacoustics are tested as a complete system (with helmet, rider and motorbike) in the wind and climate tunnel of BMW

WATERPROOFNESS

According to a DIN standard, a fabric with a water column of 8,000mm is considered waterproof

The membranes used by BMW Motorrad (e.g. GORE-TEX®) achieve a water column of up to 28,000mm with particularly high breathability

UV RESISTANCE

No normative requirements

Paint systems and textiles are tested for durability and visual changes under strict test requirements. We demand very high standards here (4,5-5 of 5 points)

FIT AND ERGONOMICS

The standard only specifies standard sizes

The range of sizes available from BMW Motorrad is based on standardised clothing sizes. high volume products are also available in short and long sizes

HEIGHT ADJUSTABILITY OF THE PROTECTORS

No normative requirements / guideline

Our knee protectors are height-adjustable as standard and can therefore be adapted to the rider for a comfortable fit and protection
